In addition to the above **all project proposals must be entered into the “Forest Legacy Information System” (FLIS) by September 10, 2007** for project proposals to be considered complete and eligible for ranking by the Forest Legacy Committee. Project proponents should work with the appropriate Forest Legacy Area Sponsor to complete the data entry¹ into FLIS.

All project proposals must:

- Meet the goals of the Massachusetts Forest Legacy Program.
- Identify any federal lands or federal investments the project complements.
- Comment that public access will be provided or provide an explanation of why not.
- Name the “Project” using a term that will **not** identify the landowner’s name.
- Identify each “Tract” in priority order (Do **not** use landowner’s name. Identify tracts as: Tract 1, Tract 2, Tract 3, etc.).
- Round up each “Tract” cost to the nearest \$5,000.
- For multiple year proposals (phased projects), indicate which phase of the project is being considered this year, how many phases have been completed, and whether additional phases will be necessary if this phase is not fully funded. Individual phases will compete each year as stand alone projects against all other proposed projects.
- For new proposals, indicate whether the project can be phased and what would make up the phases. (Be advised that by stating the project may NOT be phased there is the risk that the project prioritization panel will opt not to fund the project at all.)
- A “Project’s” total funding request may not exceed a more than \$7,000,000.
- Include the following information to be considered complete:

1. Completion of “Forest Legacy Project Information Worksheet”, and data entry¹ into the “Forest Legacy Information System”(FLIS)
 - a. Forest Legacy Area Name: (*FLA² the project proposal is in*)
 - b. Forest Legacy Project Name³:
 - c. Project Description: (*1,250 character limit in FLIS*)
 - d. Town:
 - e. County:
 - f. State Priority #: (*leave blank / for Forest Legacy Committee use only*)

³ This information is available to the public. Please apply discretion in referencing the identity (name(s)) of the property owners. The use of substitute names and / or numbers that correspond to other supporting documentation such as maps is acceptable...

⁴ FLIS has a 255 character limit per bullet. You can list multiple bullets in each category (Importance, Threatened, Strategic, and Ready)...

 - i. Strategic⁴: *(State how the project fits into larger conservation plan, strategy, initiative, enhancements or previous conservation investments)*

 - m. "Detailed Project Locator Map" suitable for insertion into "FLIS" *(PNG file format)*⁵
 - n. Latitude and Longitude *(see FLIS instructions)*
2. Completion of "Forest Legacy Tract Information Worksheet", and data entry into the "Forest Legacy Information System"(FLIS)
